

REMARKS/ARGUMENTS

Claims 52, 57, and 86-90 are amended by the instant response. No claims are canceled or added. Accordingly, following entry of this response, claims 52 and 56-93 will remain pending.

In the latest office action, the Examiner allowed a number of claims, and further indicated the allowability of the remaining claims if amended to overcome certain objections by the Examiner. This has now been done.

Specifically, independent claim 52 has been amended to change the phrase "the overlying film" into "the overlying film of material". In addition, claim 57 depending from claim 52 has been amended to change "or a" into "and a". Accordingly, claim 52 and all claims depending therefrom, are now in condition for allowance.

Independent claim 78 has been allowed by the Examiner. Claims 86-87 depending from claim 78, have been amended to change "the first plurality of particles" to "the plurality of particles", thereby providing proper antecedent basis for the latter phrase. Claims 88-89 also depending from claim 78, have been amended to change "the plurality of first particles" and "the plurality of second particles", to "the first plurality of particles" and "the second plurality of particles", respectively. Claim 90 also depending from claim 78, has been amended to specify that "the substrate" is "the donor substrate".

Finally, it is noted that claims 91-93 depend on claim 78 through claim 90, neither of which recite "a second plurality of particles". Accordingly, claims 91-93 in their present form are sufficiently definite, and there is no need to specify a "first" or "second" plurality of particles.

In view of the foregoing, Applicants believe all claims now pending in this Application are in condition for allowance. The issuance of a formal Notice of Allowance at an early date is respectfully requested. If the Examiner believes a telephone conference would expedite prosecution of this application, please telephone the undersigned at 650-326-2400.

Respectfully submitted,

Kent J. Tobin
